All taxpayers should read the following requirements and comply with them:

Section 35 Chapter 81, Revised Statutes of Maine, 1944. "Before making any assessments the assessors shall give seasonable notice in writing to the inhabitants by posting notifications in some public place in the town, or shall notify them, in such other ways as the town directs, to make and bring in to them true and perfect lists of their polls and their estates real and personal, not by law exempt from taxation, of which they were possessed on the 1st day of April of the same year. If any resident owner after such notice, or any non-resident owner after being reasonably requested thereto by the assessors, does not bring in such list, he is thereby barred of his right to make application to the assessors or the county commissioners for any abatement of his taxes, unless he offers such list with his application and satisfies them he was unable to offer it at the time appointed. The request upon non-resident owners may be proved by a notice sent by mail directed to the last known address of the taxpayer or given by any other method that brings notice home to the taxpayers."

# REPORT OF SUPERINTENDENT OF SCHOOLS

Palmyra, Maine  
10 February 1961

To the School Committee and Citizens of the Town of Palmyra:

It is with pleasure that I report to you this year on the conditions of your schools. Early in the fall of 1960 all rural schools were closed and the pupils moved into the new wing constructed onto the Consolidated building. This new building was completed just in time so that we could add another teacher to the faculty. This was necessary because two teachers had three grades and eighty pupils total. This made a very difficult teaching situation.

Following is a breakdown of grades by teachers for the schools in the fall of 1960:

Name	1	2	3	4	5	6	7	8	Total
Jennie Burns	26								26
Edna Estes		33							33
Clara Higgins			33						33
Myra Wood				24					24
Mildred Weeks					23				23
Helen Worcester						28			28
Helene Libby							30		30
Elton Knowles								18	18
Totals	26	33	33	24	23	28	30	18	215

Of course the enrollment changes from time to time as families move in and out of town. The above enrollment as of November 1, shows a gain of 15 pupils over the same time one year ago. At the present time I would say that the new school facility that the people have provided is adequate for the present enrollment. There are 8 grades and 8 teachers who have a good teaching load except where the enrollment is over 30 pupils.

The School Lunch Program and Physical Education Program that has been made possible, by this new facility, is getting under way gradually and they are being accepted wholeheartedly by parents, pupils and teachers.

A word about next year's budget. As you will note we are asking for approximately \$13,000.00 over-all school appropria-

tion than we needed last year. I wish to explain this increase in money needs by stating the following facts.

1. Common Schools

We did not include money for an extra teacher in our budget last year, as we had not planned on the 8th teacher until September 1961. When schools opened in September 1960 and there were 80 pupils in grades 3-4-5, the Committee decided to add the extra teacher and give her grade 5. This action along with needed supplies and equipment for the extra room depleted most of our funds in the elementary school budget. Thus our closing balance in Common Schools is much lower than in past years. This means an increased appropriation this coming year.

2. Secondary School Budget

Secondary tuition costs have been on the increase this year; for example the majority of our students are in schools where the tuition is \$420.00-\$430.00 per pupil. Instead of a \$7,000 balance in the secondary account this year, we are ending up with about \$100.00 balance.

3. Maintenance of Plants and Equipment

This account is dependent upon the desire of the school building committee. There will always be insurance premiums to be paid; also minor repairs. Either the school building committee or the school committee must include these items in their budget.

In conclusion I wish to thank the school committee and the citizens of Palmyra for their fine support that has been given me during my term of service to you. I feel that you have all worked hard for your schools, and now you are rewarded with one of the best small community facilities to be found in Maine. I am proud of the Palmyra Schools and I feel sure that you are.

Respectfully submitted,

HAROLD E. CARSON

Superintendent of Schools

## PHYSICIAN'S REPORT

Examination of the pupils of Palmyra schools showed the general health of this group was excellent. A few correctable disabilities were noted and the parents were notified. The students appeared alert, responded well, for the most part, to psychological observation.

The general health has markedly improved over the years and appears much better than in the pre-consolidation period. Cooperation of the Department of Health has been appreciated and this service should be commended for their directives and interest in our children's welfare. The teachers, too, are more versed in recognizing symptoms and signs than in previous years. They also should be congratulated for their interest and concern in the progress and well being of their charges.

Routine examinations have paid off in this improvement of the children's physical and mental conditioning. Nutrition, in general, has markedly been effected by the school lunch programs coupled with a higher standard of living and parental concern.

## NURSE'S REPORT

Progress Report on Mouth Health Project  
Palmyra — March 1960

To the Town of Palmyra:

Your annual mouth health project has recently been completed by a registered dental hygienist from the Division of Dental Health. A total of eight days was used.

Sodium fluoride applications for the partial prevention of dental decay were offered to the three-year-olds and to the children who are in the second, fifth, and eighth grades. Mouth examinations were given to twenty-seven first grade pupils.

Dental health classes were taught in grade one and four on proper toothbrushing, nutrition, for good dental and general health, and dental care, a vital factor.

## OBSERVATIONS MADE:

1. 62 started and 49 completed the necessary four sodium fluoride applications.
2. 8 children stated they made regular—every six months—dental visits.
3. Examination of the first teeth present revealed: 234 are actively decaying; 34 have been filled.  
This means Palmyra children are receiving about 13 per cent of the dentistry needed to correct decay in their baby teeth.
4. Examination of the permanent teeth revealed: 196 are actively decaying; 67 have been filled; 18 teeth had already been extracted because they were so badly decayed they could not be repaired by fillings.  
Taking into consideration the above observations on the permanent teeth examined, it is evident that Palmyra pupils are receiving about one-fourth as much dentistry as they need to keep their permanent teeth healthy.
5. Nearly all the children need to practice better toothbrushing habits.

Toothbrushing improves and helps maintain healthy gum tissue. If practiced regularly and immediately after eating, it will assist in the prevention of dental decay, for decay results from acids formed in the mouth by bacteria feeding upon food particles.

Although quite a few children have received dental care, most need more care. This may indicate that some parents are unaware of their children's dental needs.

Dental decay can be controlled if dental service is sought early in the child's life and continued as frequently as the dentist advises. Uncontrolled decay leads to tooth loss and subsequent impaired general health.

Working in Palmyra was a pleasure and the dental hygienist wishes to thank those who helped to make the program successful.

Respectfully submitted,

JANE DRESSER, R. D. H.

STATE OF MAINE  
STATE DEPARTMENT OF AUDIT

August 30, 1960

Board of Selectmen  
Palmyra,  
Maine  
Gentlemen:

In accordance with Chapter 90-A, Revised Statutes of 1954, an audit has been conducted of the financial records of the Town of Palmyra for the fiscal year ended February 17, 1960.

The examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting and was conducted by Auditor M. E. Libby of the State Department of Audit.

The audit analysis was on a basis consistent with that of the preceding year, and included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances.

The financial and statistical sections, incorporated in this report, present the results of the Town's financial operations for the period indicated.

Respectfully submitted,  
MICHAEL A. NAPOLITANO  
State Auditor

C O M M E N T S  
TOWN OF PALMYRA  
FEBRUARY 19, 1959 TO FEBRUARY 17, 1960  
\* \* \* \*

An audit of the financial records of the Town of Palmyra has been completed for the fiscal year ended February 17, 1960. The audit consisted of an examination of the records maintained by the Selectmen, Treasurer, Tax Collector and other municipal officials.

The examination included a review of cash transactions and an analysis of available funds and expenditures. The results are incorporated in the following text, exhibits and schedules.

The fiscal year's operations showed that the net unexpended departmental balance amounted to \$3,392.19, per the following summary:

Departmental Operations:	
Unexpended Balances	\$8,702 31

Overdrafts	5,310 12
Net Unexpended Balance	<u>\$3,392 19</u>

Revenue derived from excise taxes, the overlay, and an unexpended equipment account balance less an overdraft in the winter roads account, were the major factors contributing to the amount lapsed to surplus.

ASSETS . . . . The general fund cash balance of \$12,075.98 was verified by reconciliation of a statement furnished by the First National Bank of Pittsfield, Maine.

Accounts receivable amounted to \$180.77 and consisted for the most part of reimbursable welfare expenditures made for another municipality.

Taxes receivable totaling \$5,924.94 consisted principally of current year's accounts of \$5,101.12. The balance of \$823.82 represented prior year's accounts dating from 1953.

LIABILITIES . . . . Accounts payable of \$210.78 consisted of overpaid 1958 taxes. Withholding tax deductions due the Internal Revenue Service totaled \$356.10 at the year end.

RESERVES . . . . The appropriation accounts showed an unexpended balance of \$11,236.30, representing various operating account balances carried forward to the ensuing year in accordance with legal requirements and/or customary practice.

Uninvested trust fund principals totaling \$1,263.33 represented the ministerial and school fund of \$1,163.33 and a cemetery fund of \$100.00. It is suggested that these funds be invested in accordance with statutory provisions.

SURPLUS . . . . The unappropriated surplus amounted to \$5,115.18, a decrease of \$3,052.68 for the year. This change was occasioned principally by an appropriation for debt and interest, less the net unexpended departmental balance lapsed.

DEBT FUND . . . . The debt fund, incorporated in the balance sheet as a separate fund, reflects outstanding grader notes of \$16,500.00 and a state aid road construction note of \$5,000.00. These obligations mature during the ensuing six years with interest at 3%.

TRUST FUNDS . . . . Trust fund principals totaled \$6,138.33 and unexpended income amounted to \$20.63 at the year end. With the exception of \$1,263.33 due from the general fund, the funds are invested in U. S. Treasury Bonds and a time deposit in the Skowhegan Savings Bank, Skowhegan, Maine.

DEPARTMENTAL ACCOUNTS . . . . The departmental operating accounts showed an increase of \$2,751.68 in funds raised by taxation, as compared with the preceding year. A larger appropriation for debt retirement and a smaller appropriation for education were the major factors responsible for the increase.

Departmental balances carried forward to the ensuing year decreased by \$214.02, as compared with the balances at the start of the year. The change was reflected in the highway and education accounts.

GENERAL . . . . The transfer from surplus for debt retirement and interest and the issuance of notes for state aid road construction were authorized at the annual town meeting.

#### SCOPE OF AUDIT

The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depositories or by direct bank confirmation. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and canceled checks were checked for a selected period. Excise tax collections were verified with copies of the receipts retained by the collector.

Education account balances were reconciled with the records of the Superintendent of Schools. Debt and trust fund transactions were examined. Investments were verified by bank confirmation. Surety bond coverage was reviewed.

In our opinion, subject to the foregoing comments, the accompanying statements and supporting information present fairly the financial position of the town at February 17, 1960, and the results of its operations for the year then ended.
